

Brief and important information for our users

Newsflash 2005/28

04-11-2005 Missing data in the IFD (INPADOC Family Data) bibliographic exchange file

Due to a processing error, the bypass data from week 42/2005 onwards was unfortunately not uploaded. Over 300 000 publications have been affected.

Bypass data include:

tag 110	Inventor Name (not standardized)
tag 120	Applicant Name (not standardized)
tag 136	Abstracts
tag 081	Designated country for PCT and EP
tag 082	Designated country in a PCT application for the designation of a regional patent, i.e. EP, AP, OA, EA

It is planned to resend the completed documents as soon as possible. We will inform you about the schedule of the dispatch and upload of the missing data in our Newsflash Section as soon as we have some more details.

Our target date is week 47/2005. The number of records will exceed the normal volume as there will be around 350 000 records in that week.

We apologize to our users for the inconveniences caused.
