Newsflash 2006/35

29-08-2006 EP patents valid in Romania

We are pleased to announce the inclusion of the notification of the validation of EP patents in Romania in the legal status service.

These include approximately ninety records that will be available in the PRS database commencing with the year 2005 when the first EP patents were validated in Romania.

The PRS code is:

EP REG RO EPE

The input of this data will start in week 35/2006. The rest of the backfile records will be included in the legal status data of week 36/2006.
