### Luxembourg new document kinds

With effect from 1.10.1998 the Luxembourg (LU) Patent Office introduced the search procedure for their documents. For that reason, we will in future distinguish between patent applications with search report and patent applications without search report.

The new document kind codes are:

LU-A1 : patent application with search report  
LU-A2 : patent application without search report

As kind code LU-A1 was previously used for certificates of addition, the 17 documents of this type have been re-assigned in the INPADOC files with kind code A7 from week 3/1999 onwards.

They will therefore appear as LU-A7 additional certificate
