

IPG - Newsletter 99/14

Week 1/2000 data delays

Due to the close-down of the computer facilities during the year 1999 - year 2000 change-over, week 1/2000 of our bibliographic services will most likely contain only European data. Germany (DE) and Great Britain (GB) which normally are contained on the day of publication will be delayed one week.

Further delays will occur for several other countries, among them the United States (updated to 99-11-23) and Japan (updated to 99-11-09).

We apologize for this inconvenience.
