code meaning

At any time within twelve months after sealing of a patent, any person interested who did not oppose the grant of the patent may apply to the comptroller for an order revoking the patent on one or more of the grounds upon which the grant could have been opposed. The applicant for revocation must file a statement setting out his interest, full details of the case on which he relies and the relief sought. The patentee must file a counterstatement setting out his response. Failure to file a counterstatement leads to the patentee's case being treated as undefended. The application is heard by the comptroller who may decide that an amendment to the specification is sufficient to meet the ground of revocation. There is an appeal from any decision of the comptroller to the Patents Appeal Tribunal.
