code meaning

At any time within twelve months after sealing of a patent, any person interested who did not oppose the grant of the patent may apply to the comptroller for an order revoking the patent on one or more of the grounds upon which the grant could have been opposed. Lapsing of a patent does not bring revocation proceedings to an end, so where a patent has lapsed or the patentee is willing to let it lapse, or is willing to submit to an order for revocation, he may avoid the risk of incurring further costs by offering to surrender the patent under Section 34. The offer will be advertised in the Official Gazette so that any person may oppose the surrender, but in the event that the offer is accepted any proceedings under Section 33 will be terminated.
