code meaning

So that the monopoly conferred by a patent does not operate against the public interest, the comptroller has the power to endorse a patent 'licence of right', to grant, amend and cancel licences and to revoke the patent. Under Section 41 the comptroller may exercise these powers when the patent is for a medicine or food, a process for producing a medicine or food or an invention capable of being used as a surgical or curative device to ensure that food, medicine and surgical and curative devices should be available to the public at the lowest prices consistent with the patentees deriving a reasonable advantage. The application is advertised in the Official Gazette and may be opposed, the onus being on the opponent to show that the grant of a licence is against the public interest.
