code meaning

A correction to a patent application or a patent may be made at the instance of the comptroller or at the request of a person interested. When the Office considers correction of a document allowable it is advertised in those cases in which it appears that the correction would materially alter the meaning or scope of the document. Within one month after the advertisement in the Official Gazette any person interested may give notice of opposition accompanied by a statement setting out the interest, facts relied upon and the relief sought. The person seeking the correction may answer the statement and the case is heard by the comptroller. In the event the correction is allowed it is made on each print of the specification if publication has already taken place and an entry is made in the register if the patent has been sealed.
