code meaning

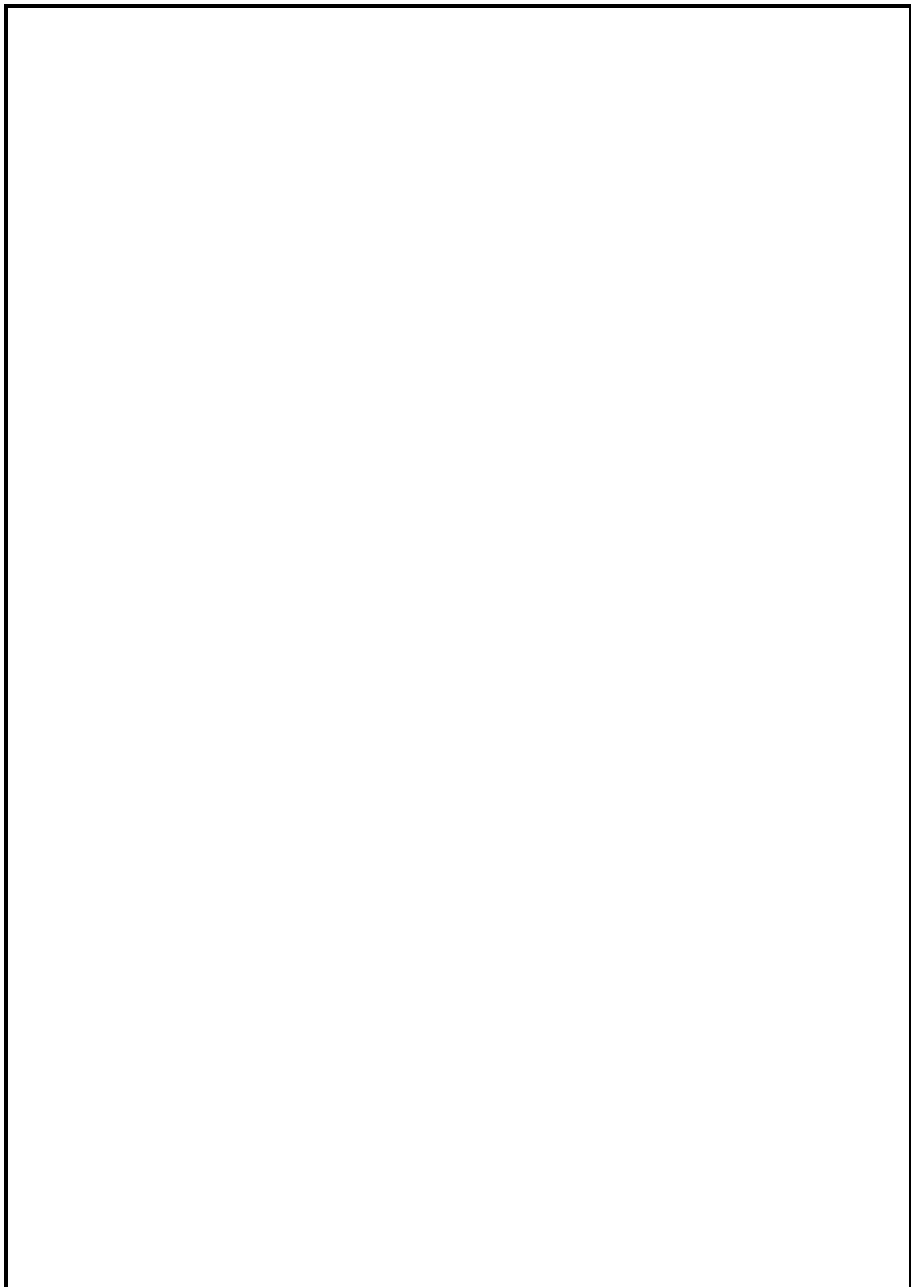

At any time within twelve months after sealing of a patent, any person interested who did not oppose the grant of the patent may apply to the comptroller for an order revoking the patent on one or more of the grounds upon which the grant could have been opposed. The applicant for revocation must file a statement setting out his interest, full details of the case on which he relies and the relief sought. An offer to surrender may be made in response to an application for revocation and the comptroller will have to decide both issues. The offer to surrender does not bring to an end an action for revocation. All decisions will be advertised in the Official Gazette.
